

**Board Resolution**  
**2021-1A**  
**Emergency Water Shortage Declaration**

**Revision Control**

Description and Status of Revision	Revision by	Rev	Date
As adopted by a vote of the Board	Cote	A	26Jun2021

By a majority vote of a quorum of the S&T Mutual Board of Directors at a properly noticed regular meeting held on **26 June 2021**, we hereby resolve that:

California Law requires that all water companies have a duty and authority to define, adopt, and declare water shortage emergencies [Ref: [WAT, §350 – 359](#)]. Due to triggering conditions as defined by the S&T Water Shortage Contingency Plan Matrix, the S&T Board of Directors has implemented the following mitigating measures associated with a **Stage 2 Water Shortage Emergency**:

1. A residential water use target of less than or equal to 150 gallons per day for each residential metered service.
2. All outdoor watering shall occur only between dusk and dawn
3. Outdoor irrigation only permitted on Thursdays and Sundays at addresses with even numbers and Tuesdays and Saturdays at addresses with odd numbers.
4. Use of potable outdoor watering using a hose is only allowed when using a spring-loaded hose nozzle which shuts off hose flow when unattended.
5. Penalties imposed for wasteful use and unfixed leaks [Refer to the current revision of Board Resolution 2014-3].
6. Fire hydrant water use limited to fire emergencies and maintenance operations approved by the Chief Operator.
7. No new Intent to Serve or Will Serve letters will be provided by S&T for new development/permit applications which could increase the S&T production demand.

This resolution can only be changed, amended, or revoked by a majority vote of a quorum at a future regular Board of Director meeting.

I hereby certify that this resolution was passed by a majority of a voting Board of Director's quorum

Signed: *Julie Madden*
