

S&T Mutual Water Company

NEWSLETTER

Serving the Community of Sunset Terrace

January 2, 2017

Congratulations to all our shareholders for the effort that you put in to conserve your water use. In 2015 the state enacted regulations to all water suppliers that required a 25% reduction in water delivered from the year 2013. In that year, our total water pumped was 17,775,900 gallons (54.55 acre-feet). In 2016 we pumped 9,978,200 gallons (30.62 acre-feet) a reduction of just over 44%.

As you walk or ride through Sunset Terrace, note the large number of properties that have changed their landscaping to low water usage.

S&T Mutual has 163 single family homes and another 42 single family units on the multi-family properties. In 2016 the average water use per family was 128 gallons per day or approximately 56 gallons per person. That puts us very close to the target of 50 gallons of water per person per day.

Mark your Calendar - S&T Annual Meeting is set for Saturday, July 15th, 10am at Sea Pines Golf Resort. This year we will be electing Directors for 2 year terms. If you would like to be on our Board please submit your name to STMutualWater@gmail.com before April 12th so that we can put it on the ballot that will be sent to all Shareholders prior to the meeting. Our by-laws allow the number of Directors to be between 3 and 5.

Just a reminder that our new water rates which we announced in our last newsletter went into effect January 1st. Attached is a copy of the current rate table.
